Office Action Summary	Application No. 10/597,929	Applicant(s) IRIZARRY-LUGO, FRANKLIN	
	Examiner ERIN DEERY	Art Unit 3751	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Specification

2. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Yost (3,817,858) in view of Nian (US 5,901,385).

5. Regarding claim 2, Yost teaches a sewage treatment system having a first treatment tank, or 'decomposing tank' (20), a secondary aeration tank or 'finishing tank'

Art Unit: 3751

(50), and a conduit (90) through which waste is drawn. Yost, however, fails to teach a chute installed in the wall of a bathroom and which leads to the tanks outdoors.

Attention is turned to Nian which teaches a dry toilet having a chute (14) which leads to external waste tanks. It would have been obvious to one having ordinary skill in the art at the time the invention was made to include a chute, similar to that taught by Nian, in the apparatus of Yost to allow for the easy removal of waste from inside a building.

Allowable Subject Matter

6. Claim1 is allowed. The prior art of record does not teach or fairly suggest a dry toilet having a bowl with two holes in the left and right sides that receives a biodegradable drawstring bag, in combination with a toilet seat having a rounded indentation.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Barreau (US 4,720,880) shows a biodegradable waste bag having a sloping angle located at the front of the bag. Person et al. (US 4,807,308) shows a stackable portable toilet with a rounded lip and a seat with a corresponding rounded indentation. La Gorce et al. (US 2,801,426) shows a disposable bag toilet with a frame that has two holes on either side that receives a drawstring bag.
